# REQUEST FOR REFUND (IMPROPER CHARGE OF DEPOSIT ACCOUNT)

## I. REFUND REQUEST

This is a request for a refund, with respect to the charge to Deposit Account No. 08-0750, shown on the statement dated December 31, 2003 (see Attachment A), for the above-identified application.

## II. FEES CHARGED FOR WHICH REFUND REQUESTED

Applicants request a refund in the amount of \$950.00 charged to the abovereferenced deposit account for a three month extension of time fee.

Serial No. 10/066,519

**BEST AVAILABLE COPY** 

Page 1

# III. EXPLANATION OF WHY CONTESTED CHARGE IS IN ERROR

This Request for Refund is being made because the Office Action Summary set a statutory period for reply at three months from the date of mailing of the communication (see Attachment B). The mailing date was September 30, 2003. Therefore, the shortened statutory period of three months would have been December 30, 2003.

A reply to the Office Action mailed September 30, 2003 was mailed, with a Certificate of Mailing on December 17, 2003 (see Attachment C). A return postcard was date stamped December 17, 2003 from the U.S. Patent and Trademark Office (see Attachment D).

Therefore, because the shortened statutory period set by the Office Action Summary of three months had not expired upon the mailing and receipt of the response, that being December 17, 2003, no extension of time fee was due. Therefore, the three month extension of time fee was incorrectly debited from the deposit account, noted above, and should be refunded thereto, as requested herein.

2014 JUL -2 PN 3: 26

#### IV. **MANNER OF REFUND**

Please make the requested refund by crediting Account No. 08-0750 in the amount of \$950.00. If you should have any questions or comments, please do not hesitate to contact the undersigned at (248) 641-1600.

HARNESS, DICKEY & PIERCE, P.L.C. P.O. Box 828 Bloomfield Hills, Michigan 48303 (248) 641-1600

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Anu Ramana whose telephone number is (703) 306-4035. The Examiner can normally be reached Monday through Friday between 8:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's pervisor, Kevin Shaver can be reached at (703) 308-2582. The fax phone number for the

anization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding 'd be directed to the receptionist whose telephone number is (703) 308-0858.

# RESPONSE TO ELECTION/RESTRICTION REQUIREMENT

2/31/2003\_SBRYCE 00

950.00 DA

Sir:

In response to the Restriction Requirement dated September 30, 2003, for which the time period to respond extends to December 30, 2003, Applicants elect claims of Group III (Claims 37-46), with traverse.

The Examiner is requested to reconsider the Restriction Requirement since it appears that the subject matter defined within all the groups of claims are similar. Consequently, the field of search for each group should be essentially coextensive. Thus,
